WIN OSX-iND @masterpaul: Could you upload your files to soundcloud or release them somewhere they can download from?  
I'm sure many of us like to be able to download it and make these patches. The RBHwPresets.exe file is quite large and may  
take some time to upload. Join us on Discord: It is recommended that you upgrade to a host that has a 64-bit operating system.  
Non-64-bit versions of the audio software may not be able to accommodate the size of this package. This plugin can be found in  
my muzikpress account here:
